

前後自動高周波同步熔斷機

High Rrequency Back-forward Auto Fusing Machine

PR-15000HKGE — 25000HKGE

(自動追蹤版)

機器特點：

- 1、省時、省工、高效率。高周波、熔接、熱壓、切斷一次OK的高科技先進設備。
- 2、具有同步熔斷機熔接切斷，熱壓機熱壓切斷功能等，一機多用化，減少操作流程，目前唯一一款無縫式操作功能的高科技設備。
- 3、占地面積小，可坐式、單人操作，節省人力，解決了之前需要兩個工人操作的難題。
- 4.自動追蹤系統：

經過我司研究團隊，研究出一套專利自動追蹤系統，這套系統可以依照材料、皮料的厚薄和立體度來自動調整電流而不用人工調整，保持電流穩定性和材料的一致，不會有人為因素導致產品的不良，這套系統是高周波機械的最新研發和改良。

The machine features:

1. Timesaving, save work, high efficiency. High frequency, welding, hot pressing, cut off a ok high-tech advanced equipment.
2. with synchronous fusing machine welding cut, thermal-pressing machine hot-pressing cutting function, multi-use optimization, reduce the operation process, the only one paragraph seamless type operation function high-tech equipment.
3. cover an area of an area small, can be seated, single operation, save manpower, solved before need two workers operating problems.
4. automatic tracking system: After our research team to develop a set of patent automatic tracking system The system can be in accordance with the materials, leather thickness and stereo degree to automatically adjust the current instead of people Work to maintain the current stability and consistency of the material, there will be no human factors The bad, this system is the latest research and improvement of high frequency machine.

適用範圍：

鞋類、商標、皮包、銘牌、服裝壓花、PET 環保料、NO SEW 無縫針車貼合、FLYWIRE、TPU 熱切貼合熔接

Application range:

Footwera, trademarks, purses, nameplate, costume embossing, PET environmetally friendly materials, No SEW Sewing Press-fit, Flywire TPU hot press-fit welding

自動追蹤系統

力升机械有限公司

POWER-RISE MACHINE CO., LTD

PR-15000HKGE-25000HKGE

前后自动高周波同步熔断机
High Rrequency Back-forward Auto Fusing Machine

产品性能和特点：

PLC+人机界面

经简单的设定即可加工各种产品，加工过程既安全又快捷，配有吊模装置更使您如虎添翼！

定位准确

本机装有高精度定位系统，使作此装置能轻松精确对位，加工品质明显提高！

高灵敏度火花保护

本机装有高灵敏度火花电子回路，当火花产生时，能迅速切断高周波电源，极安全地保护模具和加工物料。

无高频辐射

本机有良好的屏蔽装置，各项参数经国家部门检验合格。

Features and functions of our products

PLC+man-machine interface

After a simple set, it can process a variety of products, The processing process is easy and safe.

Positioning accuracy

The machine with high-precise positioning system can easily fix precise position, The processing quality is greatly improved.

Anti-spark machine

When spark occur, the high sensitiveness spark protects electric system, cuts high frequency power immediatly to protect mould and material.

No high-frequency radiation

This machine has good shielding device, all the parameters pass inspection of state departments.

规格 SPECIFICATIONS

技术参数	Model	PR15000HKGE	PR25000HKGE
电脑版本号	HKE		
高周出力	H.F.Output	15KW	25KW
振荡周率	Oscillation Frequency	27.12MHZ	
电源电压	Power Supply	AC220/380/400/415/440V 3 ϕ	
电源入力	Input power	25KVA	40KVA
最大压力	Max Pressure	40T	50T
工作面积	Area Of Work	500x600mm	500x750mm
上下电极间隔	Max Gap of Electrodes	90mm	
近似净重	Approximate Net Weight	1700kg	1750kg
装箱尺寸	Packing Size(mm)	3200(L)x1700(W)x2380(H)	3110(L)x2200(W)x2310(H)

注：若因改良而改变以上之规格，恕不另行通知！

Due to improvement, above specifications may be changed without notice!
